ARE YOU CHOOSING RIGHT COLOR?

If you have not updated your SSNI Color reference system for years, you are likely to be using faded or inaccurate colors. Our color boxes do not last forever as natural fiber have a tendency of fading due to factors such as handling , humidity , usage , improper storage , and light exposure which are all uncontrollable factors , therefore the firm is not to be held responsible for it .

ABOUT US

Welcome to SSNI

SSNI is traditionally firm in color language . So we have a new motivation in color language.

We make minimum error in matching dyed yarn. A unique color code is our production which produces a new idea in competitive era . Our system has played a leading in the carpet world . Textile and many types of yarn industry as one the best color matching tool, For matching purpose is has been accepted by importers , Designer are using SSNI Color infrastructure.

SSNI system has produced in five different qualities of yarn like Wool , Viscose , PET Yarn , Nylon ,Bamboo Silk & Natural Texture as Double or Single Dyed Yarn of Wool

SSNI has over 8000 colors which divided in various boxes for different as mentioned above.

SSNI color system works in a different way from others

We work on customization also as per custom choice or taste of colors

We also offer different pattern in box also like you may choose tray boxes or single box

Try out our system right away to experience the difference for yourself.
